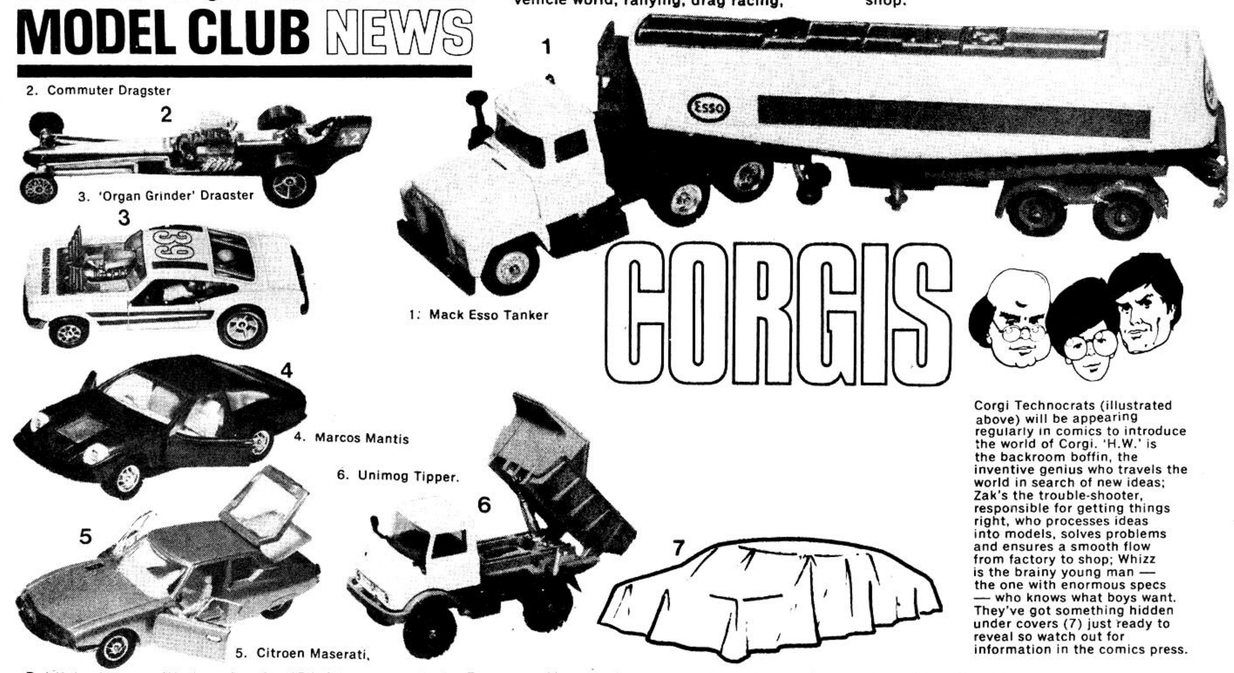
CORGI® MODEL CLUB NEWS

The Corgi range of die-cast model vehicles is one of the world's widest and best. It includes cars and vehicles from practically every country in the world. It covers the racing scene, the commercial vehicle world, rallying, drag racing, hot cars and even the futuristic world of prototype. In this last issue of Corgi Model Club News we are illustrating some outstanding recent models. Naturally there are many more to come — so keep in touch with your local Corgi shop.



CORGIS

Corgi Technocrats (illustrated above) will be appearing regularly in comics to introduce the world of Corgi. 'H.W.' is the backroom boffin, the inventive genius who travels the world in search of new ideas; Zak's the trouble-shooter, responsible for getting things right, who processes ideas into models, solves problems and ensures a smooth flow from factory to shop; Whizz is the brainy young man — the one with enormous specs — who knows what boys want. They've got something hidden under covers (7) just ready to reveal so watch out for information in the comics press.
